No. 213 (16) T. & E. (A. B.).—By Notification No. 213 (11) T. & E. (A. B.), of this date the 1st April 1932 has been appointed as the day on which the Indian Companies (Amendment) Act, 1930 (XIX of 1930), shall come into force and by Notification No. 213 (11) T. & E. (A. B.), of the same date the rules made under that Act have been published. In place of the Local Governments the Governor-General in Council becomes the statutory authority for the grant of certificates to persons entitling them to act as auditors of public companies in British India, and, at the same time, the qualifications required of applicants for such certificates and the regulations under which they will be granted have undergone radical alteration.

2. The Government of India recognise that an abrupt transition from the old to the new system might involve hardship to members of the accountancy profession and to persons already engaged on a course of training with a view to qualifying themselves for entry into that profession. Provision has accordingly been made in the law and in the statutory rules, and has been supplemented by administrative arrangements, by which it is hoped to avoid any difficulties which the change might otherwise have caused. The principal provisions of this nature to which the Government of India wish to call attention are the following:—

(1) Under section 3 of Act XIX of 1930 certificates granted by Local Governments before the 1st April 1932 entitling the holders, and all declarations made before that date by the Governor-General in Council entitling the members of any specified institution or association, to be appointed and to act as auditors of companies throughout British India remain valid until the 31st March 1933.

(2) Under the Auditor's Certificates Rules:—

(*a*) Any person who has obtained or shall in future obtain the Government Diploma in Accountancy awarded on the recommendation of the Accountancy Diploma Board, Bombay, is qualified for enrolment on the Register of Accountants without being required to satisfy the new tests now prescribed.

(*b*) Special concessions for the purposes of the written examinations and of service under articles, are given to persons who have before the 31st December 1934 passed the examination for the Government Diploma in Accountancy or an examination recognised as equivalent thereto by the regulations for the award of that Diploma.

(*c*) For a certain period from the 1st April 1932 Accountants permitted to take apprentices for training for the Government Diploma in Accountancy will be permitted to take Articled Clerk without being required to satisfy the new regulations governing service under articles.

(3) The First Examination prescribed by the new rules will be held for the first time in March or April 1933 and the first Final Examination in March or April 1935. In the meantime, examinations under the existing rules for the grant of the Government Diploma in Accountancy will continue to be held as at present until a date not later than the 31st December 1934; and the Accountancy Diploma Board will continue in existence for a certain period beyond that date for the purpose of making recommendations to the Government of Bombay for the award of the Government Diploma in Accountancy to any persons who may have passed the examination prescribed or recognised by the regulations governing the grant of that Diploma but may not have been able to complete the necessary practical training by the end of 1934.

ORDER.—Ordered that a copy of the above Resolution be communicated to all local Governments and Administrations, the Finance Department, the Department of Education, Health and Lands, the Foreign and Political Department, the Auditor-General; the High Commissioner for India, London; the Indian Trade Commissioner, London; His Majesty's Trade Commissioner in India; the Director-General of Commercial Intelligence and Statistics, Calcutta; all Chambers of Commerce and Associations in India and Burma and all prospective members of the Indian Accountancy Board.

ORDERED also that it be published in the *Gazette of India*.

Chittagong, the 7th March 1932. (564—3)

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are (1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

9. In sub-section (*2*) of section 66 of the said Act, for the words "one hundred rupees" the words "fifteen rupees" shall be substituted. *Cf. Ib.* S. 149.

STATEMENT OF OBJECTS AND REASONS.

(1) The Income-tax Act was for the first time enacted in 1886, when it was said that a sum of about a crore of rupees was required owing to the deficit Budget created by the unusual outlay on the Burmese War and the sudden depreciation of silver. The tax was intended to be a temporary one. But it has since remained and now realizes over twenty times that amount. Similarly, the super-tax levied as a war measure has been made permanent. But the procedure for the levy of both is antiquated and summary and places an undue power in the hands of the assessing authorities who have been given the final right of hearing the so-called appeal of the assessee.

(2) Income and super-tax is more appropriate to creditor countries and to those in which commercial and industrial enterprise has led to the accumulation of capital from which the state may justly claim a share. But in a country primarily agricultural in which capital is naturally shy, and commercial and industrial enterprise comparatively recent and in a state of infancy the state should be loth to tax at least over-tax the circulation of capital, but this is now possibly a counsel of perfection.

(3) The intention of this Bill is, therefore, merely to remove the most glaring of defects in the method of assessment and its control leaving a future reformed rectifying the obvious wrong of a double super-tax and other anomalies from which the payers of income-tax suffer.

(4) For the present it is intended to bring the assessors under some popular and judicial control and partially redress the just major grievances of the assessees.

It is hoped that the Bill will receive general support and in some measure ameliorate the harshness and rigour of a taxing measure whose unpopularity has been pronouncedly increased by the mode and manner of its administration.

NOTES ON CLAUSES.

Clause 2.—In England the collecting agency is an independent body of patriotic citizens who levy the tax and hear appeals from the assessors' valuation and are generally entrusted with the administration of the Act; the result being that the tax odious though it is does not gain in its odiousness by its administration by the very persons interested in its collection.

(2) Under S. 57 of the English Tax Act, 1918, now in force, the income-tax is levied by the commissioners of Inland Revenue whose numbers ordinarily varies from 3 to 7 (S. 59) but which may be increased to 14 (*Ib.* S. 59). They are appointed for specified cities or divisions and possess the sole power to assess, collect and levy the income-tax (*Ib.* S. 64) and hear appeals against assessment (*Ib.* S. 133). Such commissioners are generally drawn from well-to-do classes. For special cases special commissioners are appointed and they possess the same right as general commissioners (*Ib.* S. 67).

The general commissioners appoint assessors for one year (*Ib.* S. 76), and the collector of taxes (*Ib.* S. 80).

(3) If the English procedure were followed the whole Act would have to be recast. It is not the intention of the present Act to do more than introduce an element of impartibility in the assessment of income-tax by providing that the assessor shall act with the concurrence of three or more assessors and that all appeals against his assessment shall lie to a court unconnected with the assessing department. This is the barest justice to the assessee who is entitled to much more and not anything else.

(4) The English law allows three appeals against an assessment—*first* to the special commissioners, *secondly* to the Recorder or *County Court* Judge and *thirdly* to the High Court (SS. 14-149). Under the Bill if passed provision is made only for a single appeal, but the High Court has been given the general power of revision which it possesses in all civil and criminal cases. In England the appeals lie to special commissioners. The Bill embodies the general spirit of the English Act though it does not adopt its machinery.

The following Bill was introduced in the Legislative Assembly on the 18th February, 1932 :

L. A. BILL No. 11 OF 1932.

A Bill to provide for the protection of the names "Khaddar" and "Khadi" used as trade descriptions of cloth spun and woven by hand in India.

WHEREAS the names "Khaddar" and "Khadi" have come to mean cloth which is spun and woven by hand in India ;

AND WHEREAS it is desirable to protect the said names ;

It is hereby enacted as follows :—

Short title.

1. This Act may be called the Indian "Khaddar" (Name Protection) Act, 193 .

Definition of "Khaddar" and "Khadi".

2. In this Act, "Khaddar" and "Khadi" mean cloth which is spun and woven by hand in India.

Use of the names "Khaddar" and "Khadi" as trade descriptions on cloth.

3. The names "Khaddar" and "Khadi", whether in English or in any Indian vernacular language as exclusively signifying cloth spun and woven in India by hands, shall be deemed to be trade descriptions within the meaning of the Indian Merchandise Marks Act, 1889. IV of 1889.

STATEMENT OF OBJECTS AND REASONS.

Considerable progress has been made in recent years in reviving and popularising as a cottage industry spinning and weaving by hand as a supplementary occupation among the agriculturist population of this country, who stand in need of an additional source of income. Such progress as has been achieved is very largely supported by the patriotic impulse of the poorer and well-to-do classes who are purchasing Khaddar, or Khadi even at a sacrifice. The situation is sought to be taken advantage of by manufacturers of spurious Khaddar both in India and abroad, and purchasers have been frequently misled to the detriment of what might easily become a great national industry. The Bill, therefore, seeks to extend the protection afforded by the Merchandise Marks Act, 1889, to the names "Khaddar" and "Khadi" which have come to denote hand spun and handwoven cloth only. The exclusive use of these terms for this cloth cannot prejudicially affect *bona fide* producers or distributors of any other variety of cloth.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to provide for the employment of Indian tonnage in the coastal traffic of British India and of the Continent of India. This Bill is intended to serve as a powerful aid to the rapid development of an Indian Merchant Marine Several attempts made in this direction in the past have all practically failed, owing, it is believed, to the existence of powerful non-Indian interests in the coasting trade of India. There can be no doubt that the growth of an Indian Merchant Marine would prove a powerful factor in the employment of Indian talent in various directions in a manner calculated to advance the national interests of India.

This Bill was introduced in the last Assembly by Mr. Sarabhai N. Haji, M.L.A., and was referred to a Select Committee whose report was presented to the House. The Bill then lapsed owing to the dissolution of the Assembly. The draft of the Bill now submitted is the same as was approved by the Select Committee.

The following Bill was introduced in the Legislative Assembly on the 18th February, 1932 :—

L. A. Bill No. 22 of 1932.

A Bill further to amend the Indian Registration Act, 1908.

WHEREAS it is expedient further to amend the Indian Registration Act, 1908 ; it is hereby enacted as follows :— XVI of 1908.

Short title and extent.

1. (*1*) This Act may be called the Indian Registration (Amendment) Act, 193 .

(2) It extends to the whole of British India except such districts or tracts of country as the Local Government may exclude from its operation.

Amendment of section 11, Act XVI of 1908.

2. In section 11 of the Indian Registration Act, 1908, the words "on duty in his district" shall be omitted. XVI of 1908.

STATEMENT OF OBJECTS AND REASONS.

Under section 6 of the Indian Registration Act, the Local Government make all permanent appointments to the office of Registrar. In some cases the persons appointed are public officers who perform registration duties by virtue of their office in addition to their other duties. In the Punjab, the Deputy Commissioner in administrative charge of the district for the time being has been appointed by the Local Government as an *ex-officio* Registrar of each district. The duties of a Deputy Commissioner are so numerous that he is compelled to remain absent from the office although present at the headquarters. Under section 11, he cannot delegate his duties of a Registrar to any of his subordinates. This results in a good deal of inconvenience and expense to the public as well as to the district officials. It is proposed to so amend the section as to remove this hardship.

The following Bill was introduced in the Legislative Assembly on the 18th February, 1932 :—

L. A. Bill No. 25 of 1932.

A Bill to repeal the Special Marriage (Amendment) 1923.

WHEREAS it is expedient to repeal the Special Marriage (Amendment) Act, 1923 ; it is hereby enacted as follows :— XXX of 1923.

Short title and extent.

1. (*1*) This Act may be called the Special Marriage (Amendment) Repealing Act, 193 .

(*2*) It extends to the whole of British India, including British Baluchistan and the Sonthal Parganas.

Repeal of Act XXX of 1923.

2. The Special Marriage (Amendment) Act, 1923, is hereby repealed. XXX of 1923.

STATEMENT OF OBJECTS AND REASONS.

The Special Marriage Act of 1872 was originally intended to meet the urgent demand of the Brahmos and other Hindu Dissenters as their legal position at the time regarding marriages was found to be that "no form of marriage legally constituted and valid beyond all doubt or question was provided for them." In meeting this restricted position the late Sir Henry Maine attempted to make the question the opportunity for passing a Civil Marriage Act of a most comprehensive nature, and in doing so he proceeded on an entirely mistaken view of the position of the Indian Law in this country, as was later pointed out by Sir James Fitz Stephen, for he believed that that position so far as it related to the Hindu or for the matter of that the Muhammadan religion depended on certain phrases incautiously used in the earlier legislative enactments. The result was that the Bill had the effect of introducing a great change into Native Law ", and involved interference with "Native social relations ", which under the circumstances was considered by the Government of the day to be unjustifiable. The Act was, therefore, confined to its original purpose and it is worthy of note that even this more modest measure admittedly intended to redress an undoubted grievance, met with very great opposition, not only among the un-thinking masses, but some of the most intelligent men in the land—men who occupied very high and distinguished positions, such as the late Sir T. Muthusami Aiyar, Honourable Mr. Ramaiengar and others. Subsequent to the passing of the Act, attempts were made to amend it on two different occasions, but at each time with a different purpose. Both the attempts failed, thanks to the firm attitude of the Government towards social legislation, which they adopted a century ago "with great deliberation, adhered to with great pertinacity, and supported by the strongest reasons."

Subsequent to the introduction of the Reforms, Sir Hari Singh Gour renewed the attempts unsuccessfully made by his predecessors, and they were attended with partial success by the enactment of the Act XXX of 1923, though it fell far short of a Civil Marriage Act, which was the original idea underlying the Bill. A reference, however, to the Objects and Reasons for the Bill which was eventually passed as Act XXX of 1923, the various speeches made in support of it and the subsequent attempts to enlarge its scope shows a want of clear appreciation of the actual legal position and the real objective of the learned mover. At first he put it on the ground of the necessity of a Civil Marriage Law in order, as he later explained, to ensure for the Indian an international status, a perfectly understandable position, whether one agrees with it or not. What, however, he failed to perceive is that while even in Europe, Civil Marriage was only a comparatively recent institution, and as far as the eye could stretch it is difficult to foresee a time when the necessity of the form of a religious marriage would or could be dispensed with in India, and that, therefore, nothing in the Western world has any relevancy towards the Indian marriage laws or bearing on them. Be this as it may, the proposed measure being of an optional nature, it was absolutely useless for international recognition. As has been pointed out by the Honourable the Law Member in his vigorous speech of the third February last, "in order to secure international recognition it is necessary that it should be a compulsory measure so as to show that in India there is a compulsory Law ensuring monogamy and, therefore, deserving of international recognition." So far, therefore, the argument based on international advantage falls to the ground.

When, however, in spite of all those, the measure was actually introduced in the Legislative Assembly, it met with so great an opposition, especially among the Muhammadans that the author found it prudent and necessary to exclude them, and to confine his attentions to the disorganised and much abused Hindu Social Laws, thus curtailing the universality of the Bill, and casting to the winds the last vestige of its character as a Civil Marriage Law for purposes of international recognition. This converted the original measure into a frankly Social Reform Legislation.

Now, it is an admitted fact that in India marriage is a socio-religious institution, more religious than social, and if you desired to interfere with it by any means of legislation, you must conform to some essential conditions, the most important of which is that 'there must be very strong and conclusive evidence that the change is demanded by the people who are affected." It is a singular circumstance that from the beginning up to now, no claim was made either by the author of the Bill, or its supporters that the measure has such a demand, or that they had before their minds this necessary condition precedent to any legislation of this nature. Every Local Government, every responsible public body or man, that was consulted not only denied that there was any such demand or desire, but anticipated strong resentment and opposition which only became too true. The opinion of the Government of Bombay expressed through their spokesman, the present Home Member, is typical of the clear and unambiguous attitude of Local Governments in this matter, that the measure was not only not demanded by the public most affected by it, but that it has not even secured any large support from any section of the country, excepting certain advanced and so-called enlightened elements. Even the Legislative Assembly at first rejected the motion to refer the Bill to a Select Committee. It was during its Simla Session when [redacted] were not many Members present that the Bill was passed. Even so, if only a few of [redacted] embers who had originally voted against the Bill had continued firm, the Bill would have met with the only fate it deserved, *viz.*, (total rejection). Even those, who later supported the measure in the Legislative Assembly, avowedly did so not because the measure was in accordance with Hindu sentiment or that there was any general demand on their part, but because there were other considerations, such as freedom of conscience—as if it was honest or conscientious to hold out to the world that a man is a Hindu when as a matter of fact, he is not, by his having rejected every canon and injunction of that religion. As a social legislation, the measure was thus vitiated by the absence of the fundamental conditions justifying its being undertaken. The learned author then fell back upon a recital of other advantages which his Bill would secure to the Hindu community, and these have since been thoroughly exposed to be illusory.

More than all these the Bill contains certain glaring inconsistencies which the learned author never attempted to rectify. Whereas under the old Act a man continued to be governed by Hindu Law for purposes of inheritance, etc., in spite of his declaration that he was not a Hindu, under the amendment, as eventually passed in 1923, though he had not to make any such declaration and was thus enabled to and did continue a Hindu—yet he was to be governed by the Indian Succession Act. The anomaly created by the Indian Majority Act has been admitted by Sir Hari Singh Gour himself, and his attempt to get rid of it has been negatived by this Assembly. Since the passing of the Act about eight years ago, there is no evidence that any large section of the country has taken advantage of it. It is a blot on the Legislature that such an imperfect, inconsistent, uncalled for, mischievous piece of legislation should be allowed to continue in the Statute-book. The present Bill is, therefore, introduced to repeal it. The above, in short, are reasons for effecting the object.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 29th March 1932.

Forecast of the Rabi crops of Bengal for 1931-32.

(NOTE.—On an average of the five years ending 1929-30, the area under summer rice in Bengal has represented some 0·5 per cent. of the total area under rice in British India.)

Character of the season.—At the outset the rainfall in October and the first part of November was in excess of the normal. The preparatory tillage and sowings of the crops, which commenced generally in the usual time, were a little delayed in some East and North Bengal districts. Subsequently dry weather since the second week of November proved helpful to the germination and growth of the crops, but the drought, being prolonged up till the end of January, has affected the growth of the early crops to some extent while late sown crops have been benefited by the light rainfall in February. On the whole, the season has been satisfactory for the crops this year.

Acreage.—The normal area under the different *rabi* crops dealt with in this forecast is estimated at 3,417,000 acres. The area actually sown this year is reported to be 2,981,600 acres as against 2,865,600 acres last year. Of this, the area under summer (*boro*) rice is returned at 394,400 acres as against 379,600 acres last year, and that under tobacco is 292,800 acres as against 283,900 acres last year.

Outturn.—According to District Officers' estimates, the average outturn of the different *rabi* crops for the province as a whole works out at 79 per cent. of the normal as against 82 per cent. last year, the outturns for the more important *rabi* districts being as follows:—

Mymensingh 75, Dacca 61, Rangpur 100, Faridpur 95, Murshidabad 73, Pabna 72, Noakhali 75, Malda 69, Jalpaiguri 90, Rajshahi 83, Khulna 90, Bakarganj 77, Nadia 64, Tippera 79, Jessore 75, Burdwan 85 and Midnapore 75.

Summer rice and tobacco crops.—The outturn of summer rice, according to district estimates, is 75 per cent. of the normal as against 80 per cent. last year. The gross yield of the crop for the province, on a basis of the normal yield of 14 maunds of clean grain per acre, is estimated at 152,100 tons this year as against 156,200 tons last year.

The outturn of tobacco crop is estimated at 93 per cent. of the normal as against 94 per cent. last year. Taking 12½ maunds as the normal yield of the crop per acre, the gross yield of the crop for the province this year is estimated at 122,500 tons as against 120,100 tons last year.

R. S. FINLOW,
Director of Agriculture, Bengal.

This voucher for refunds provides for a certificate of such note having been made. The officer who received the amount should fill in columns 1 to 5 of the form and sign the certificate in column 10, while the Treasury Officer or the Sub-Treasury Officer should verify the credit by means of the particulars on columns 4 and 5 and affix his signature in column 6 in token of his having done so. The sanction for the refund may either be given on the voucher itself or quoted in it, a certified copy being attached when such orders are not separately communicated to the audit office.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 5th April 1932.

Third Forecast of the Wheat Crop of Bengal, 1931-32.

(NOTE.—On an average of the five years ending 1929-30, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (*a*) British India and (*b*) in the territory now reported on has, in the five years ending 1929-30, averaged (*a*) 39·7 and (*b*) 11·2 per cent., respectively.)

Character of the season.—In the important districts of Nadia, Murshidabad and Malda, where more than half of the total area is occupied by the crop, drought has affected the outturn; elsewhere the weather was generally favourable. On the whole, the season may be regarded as a satisfactory one for the crop this year.

Acreage.—According to District Officers' estimates the total area sown amounts to 145,200 acres this year as against 142,900 acres, both in the corresponding and final forecasts of last year.

Outturn.—The average outturn for the province, as worked out from district estimates, is 82 per cent. of the normal as against 78 and 75 per cent. in the corresponding and final forecasts of last year.

Taking the normal yield to be 8¾ maunds per acre, the gross yield of the crop for the province is estimated at 38,300 tons this year as against 35,800 and 34,400 tons in the corresponding and final forecasts of last year.

R. S. FINLOW,
Director of Agriculture, Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 6th April 1932.

Summary.—Excepting light and scattered showers in a few districts of the Burdwan, Dacca and Chittagong Divisions the week was practically rainless. Rain is badly needed for the field operations for jute and paddy. Reaping of spring crops is almost completed. State and prospects of standing crops are generally fair. Distress continues to prevail in parts of Rangpur, Bogra, Pabna and Mymensingh where 1,876, 665, 2,663 and 1,116 persons, respectively, attended the test relief works. In Mymensingh 158 persons received gratuitous relief. The average price of common rice for the Province has fallen by about 0·15 per cent. as compared with that of the previous week.

Rule 2, Clause (6).

To dispose of all matters relating to the appointment or discharge of next friends or guardians *ad litem* of minors or persons of unsound mind, except in cases under appeal to His Majesty in Council, before the admission of an appeal, and to amend the record accordingly.

Rule 2, Clause (18).

To deal with and hear applications to dispense with the copy of the judgment, under Order XLI, Rule I of the Civil Procedure Code and Chapters V and VI, Rules 3 and 10, respectively, of the Rules of Court.

Chapter VI (revised).

I. *Cancel* Rules 3, 6, 8 and 10 at pages 1 and 2, and *substitute* therefor the following:—

Rule 3.

Matters relating to (1) service of notices or other processes; (2) substitution of parties and appointment or discharge of next friends or guardians *ad litem* of minors or persons of unsound mind, before the admission of an appeal; (3) preparation of paper-books; and (4) return of documents, and matters not expressly required to be laid before the Division Court for orders shall be dealt with and disposed of by the Registrar.

Rule 6.

Notice of an application under the preceding rule shall be given by the applicant or his Advocate by delivering to the proper person (ordinarily the Advocate for the appearing opposite party) a copy of the petition, together with a notice in the following form:—

> Take notice that this application will be filed with the proper officer of the Court, and that you are required to attend and show cause against the application at the hearing, if you desire to do so.

Rule 8.

Every petition under Order XLV, Rule 2, Civil Procedure Code, shall be presented to the Stamp Reporter. Such petition shall be accompanied by—

(1) a court-fee of Rs. 16 for drawing up an estimate of the expense of preparing and forwarding to the Registrar of the Privy Council the record of the case;

Rule 10.

Where more than one such application is made by the same party at the same time relating to decrees or final orders made in pursuance of the same judgment and only one record is required to be printed, the Registrar may order that only one court-fee of Rs. 16 be paid or that one certified copy of the judgment be accepted, or may refer the matter to the Court for orders.

II. *Insert* the following after Rule 16, at page 4:—

Rule 16A.

On the receipt of a report from the Court of first instance under Order XLV, Rule 5, Civil Procedure Code, as to the amount or value of the subject-matter of the suit and of the proposed appeal, notice shall forthwith be given to the applicant and to the appearing respondents, and any party objecting to the report shall, within seven days from the date of the notice, file his objections, if any, and also serve a copy thereof on the other side. THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are (1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

Resolution reviewing the reports on the working of district and local boards during the year 1930-31.

GOVERNMENT OF BENGAL.

Local Self-Government Department.

Local Self-Govt.—Local Boards.

CALCUTTA, THE 12TH APRIL 1932.

RESOLUTION No. 1823L.S.-G.

Minister-in-charge: The Hon'ble Mr. Bijoy Prasad Singh Roy.

District and local boards.—The framework of district board organisation remained unchanged with 26 district boards and a membership in all of 683, of whom 429 were members elected by local boards. The District Magistrate remained Chairman of the District Boards of Bankura, Midnapore and Mymensingh, three districts with abnormal features in the record of the past two or three years: but elsewhere Chairmen were elected except in Darjeeling where the Chairman of the District Board has always been appointed. The total number of meetings was 402; but this figure is not a true index of deliberative activities as so much of the district board work is done through the standing committees. The total number of local boards increased from 82 to 84 through the formation of two sanctioned in Jalpaiguri and Malda districts in the

previous year, and their total membership numbered 1,385. They continued to function as electoral colleges for district boards and local agencies for the expenditure of delegated funds; but it is not to be assumed for this reason that they have ceased to fill a useful purpose as deliberative bodies for the subdivisional area and as intermediaries between union board and district board.

2. **Financial features.**—The total receipts of district boards, which had already shown a marked decline in 1929-30, decreased by a further sum of 1 lakh to 1·48 crores in 1930-31. With the impending depression some decrease was inevitable, but the figures are more marked than appears, for the receipts from Government grants within this total actually rose by over 3 lakhs to Rs. 45,71,088. In the economics of local self-government, it certainly is disquieting to see district boards deriving year by year proportionately less of their revenue from local taxation and local receipts and more from grants from the provincial budget, a feature which will be still more marked in the accounts for 1931-32. The total expenditure practically balanced total receipts with a decrease of 4 lakhs on the figures for the previous year.

3. **Education.**—The income and expenditure amount to Rs. 21·5 lakhs and Rs. 36 lakhs against Rs. 22 lakhs and Rs. 37·5 lakhs respectively in the previous year. The receipts from Government contribution were about Rs. 21 lakhs. The expenditure on primary education alone was Rs. 29 lakhs. The number of upper and lower primary schools maintained and aided by district boards increased from 49,090 to 49,471. The number of boys and girls attending these schools was about 1,340,000 and 356,000 respectively. Primary education suffered a good deal owing to the economic difficulties during the later months of the year when district boards had perforce to withhold grants. This inability to raise funds led to the abandonment during the year of two schools, one in Midnapore and one in Faridpur, which had been sanctioned on the basis of Mr. Biss's recommendation. The danger of a real setback will, however, be greatly diminished if it is found possible to bring certain provisions of the Primary Education Act into force in the near future in selected districts. There were 51 industrial schools maintained and aided by district boards imparting instruction to some 1,900 pupils in various subjects, including carpentry, smithy, wicker work, dyeing and weaving.

4. **Public health and medical relief.**—The outstanding feature in expenditure under this head is that as contributions from the provincial budget increase, district boards are not only failing to find proportionate additional funds themselves—with their limited resources this might be difficult—but are already tending to disregard the condition that their own expenditure on district health should not be reduced on receipt of Government grants. In 1926-27 before rural health units existed, the boards spent in all Rs. 22 lakhs on "Medical" and "Public Health," including Government grants of Rs. 3·84 lakhs or Rs. 18·16 lakhs of their own funds. In 1929-30 the boards spent on the same objects Rs. 31·7 lakhs including Government grants of Rs. 11·11 lakhs or Rs. 20·59 lakhs net. In 1930-31 the reverse tendency had begun to show itself and with Government grants of Rs. 13·87 lakhs the boards spent in all only Rs. 33·2 lakhs on "Medical" and "Public Health," these figures representing a decrease of Rs. 1·26 lakhs in their own expenditure on these objects. It is already clear that this tendency also will grow more acute in 1931-32 and it makes a new problem in defining the conditions of Government grants for these purposes.

The scheme for rural health units, to which much attention has been given in the resolutions for recent years, is now practically complete. The number of health circles corresponding to police thanas has reached the maximum of 575, though the actual expenditure on each is still a good deal short of the estimated ultimate cost of Rs. 2,000 per annum. On the whole the benefits of the scheme have come fully up to expectations, the Sanitary Inspectors providing both a local inspecting and precautionary agency in matters of public health and a mobile force within the district available for concentration on emergency measures on the occasion of a serious epidemic. Steps are being taken to define more closely the status and functions of these officers by statutory rules. The weak point of the scheme at present lies in the inadequacy of supervision, especially in the larger districts.

The record of public health for the year will be more appropriately dealt with in the resolution on public health. Increased attention to the problem of leprosy is noticed in the Bankura and Midnapore District Boards. Vaccination services continued on the usual level, but the special effort for vaccination of the whole population in four or five years has not materialised. District health authorities pushed on with cholera vaccination, especially on the occasion of epidemics; but met with little response in this task in districts not immediately affected, the figures for inoculation in Khulna for instance decreasing from 82,000 to 25,000.

Institutional medical relief was afforded by a chain of dispensaries which, with the stimulus of the grant for village thana dispensaries, now extends to almost every thana in the province. The radical problem in the provision of hospital treatment in the districts lies in fact now not so much in increasing the number of outlying dispensaries as in improving the standard of the headquarters hospital, so as to provide one really well equipped hospital in each district; and this naturally goes rather beyond the medical activities of district boards.

The tendency to divert funds available for medical relief to subsidising ayurvedic, unani and homœopathic dispensaries is still in evidence and Government would again emphasise the need for caution in this policy of enlisting this cheaper, and sometimes more popular, type of medical aid in place of the qualified licentiate.

5. **Veterinary.**—Two years ago district boards were relieved of expenditure of about Rs. 70,000 per annum on the purchase of serum with the idea that the amount saved would be applied to their veterinary work. Their expenditure on veterinary services promptly fell from Rs. 2,12,500 to Rs. 1,78,000 and decreased further in the year under review to Rs. 1,67,227. Naturally in these circumstances no expansion was possible beyond the scale of work in previous years.

6. **Civil works.**—In last year's resolution comment was made on the continuous decrease since 1926-27 in expenditure on the unattractive but very necessary head of "Public Works." This tendency continued, and the total expenditure of Rs. 54 lakhs on "Civil Works" represents a further decrease of no less than Rs. 4·5 lakhs on last year's total, with the result that the district boards in 1930-31 spent over Rs. 10 lakhs less on public works than in 1926-27, which serves usefully as a standard year. Of the total expenditure Rs. 4 lakhs were spent on buildings, Rs. 67 lakhs on water-supply and Rs. 31 lakhs on communications, the latter alone showing a decrease of Rs. 2 lakhs on last year's figures. It is all very well to blame motor traffic for the deterioration of district board roads, but the fact remains that out of a total expenditure on all heads of the budget in 1930-31 Rs. 7 lakhs in excess of that for 1926-27, the district boards spent Rs. 5·5 lakhs less than their expenditure in that year on the head of communications. Detailed scrutiny of the variations in individual boards and of the general trend of funds diverted from communications would go beyond the scope of the annual resolution, but obviously there is something fundamentally wrong in the road policy of district boards when figures like this appear simultaneously with repeated complaints about excessive wear and tear of the main roads. On the other hand, three district boards in the Rajshahi Division were able to effect an unexpected amount of earthwork on roads in the shape of famine relief.

7. **Water-supply.**—Expenditure on water-supply decreased from Rs. 7,59,000 to Rs. 6,73,000—a decrease of a lakh and a half in two years which it is a little difficult to understand. The postponement of half the Government grant for water-supply from 1928-29 to 1929-30 may have contributed to erratic figures, though the grant is not paid directly to district boards. There has not been much enthusiasm for the scheme of water-supply loans with a grant in reduction of interest for which Rs. 6,00,000 was provided in the provincial budget for 1930-31: while at the same time the financial crisis which occurred in that year made it necessary to surrender the greater part of this provision and slow down the whole policy. In the present abnormal financial position both of Government and the boards it is to be feared that the scheme has received its quietus for a year or two. A good deal of activity is reported in sinking tube-wells, noticeably in Jessore where 301 wells were sunk and in Mymensingh where tube-wells had fallen out of favour two or three years ago.

8. **General remarks.**—It is to be remembered that the year under review is that in which the financial depression first made itself acutely felt; and if the activities of a good many district boards were seriously disorganised for this reason they may well claim that their experience was much the same as that of Government itself. On the other hand, up to the end of the financial year 1930-31 Government were able to maintain the scale of annual recurring grants for education, public health and general purposes up to the standard of previous years and to meet without check the expanding liability on account of the increase of rural health units. This policy, it may be added, has been continued through the far greater financial stress of the year 1931-32.

The year was not remarkable for any administrative change in the relations between Government and district boards. Mention should, however, be made of a Conference of Chairmen of District Boards held in Darjeeling in October 1930 under the Chairmanship of the Hon'ble Nawab K. G. M. Faroqui, Khan Bahadur, then Minister-in-charge of Local Self-Government, to advise on the revision of the Local Self-Government Act. A Bill based on the recommendations of this Conference has recently been introduced in the Bengal Legislative Council.

The year under review coincides with the period of the Civil Disobedience Movement, and it is noticeable to how small an extent the ordinary functioning of district boards was affected by the political upheaval. With the exception of one or two districts the Chairmen threw their weight loyally on the side of Government; and ebullitions of hostile feeling in the shape of resolutions and adjournments were, all things considered, remarkably few, while the routine machinery and permanent staff of the boards continued to function normally. It may fairly be claimed that in the sphere of local self-government one of the results of this abnormal year was to reveal the district boards as responsible, and self-respecting local authorities occupied with their own administrative functions and little influenced in their practical working by political and partisan forces. If not entirely immune from the wave of excitement which passed through the country, the district boards continued to play their part effectively notwithstanding it, in an atmosphere of matter-of-fact attention to the responsibilities of their position in the local self-government system.

The Minister in charge of Local Self-Government would take this opportunity of adding to the tributes to the late Mr. Peddie, which have already appeared, his appreciation of the services rendered by him as appointed Chairman of the Midnapore District Board.

*Revenue Accounts not opened.

3. **General.**—The total capital expenditure of the department in the year 1930-31 was nearly Rs. 19,00,000 after deducting recoveries amounting to Rs. 3,60,358.

The only important new projects under construction during the year under report were (1) the Damodar Canal which is an irrigation work designed to supply water to about 200,000 acres of land in the districts of Burdwan and Hooghly, (2) the Bakreswar Project—a small irrigation work in the district of Birbhum which was nearly completed during the year, and (3) the construction of locks and sluices on the Lower Kumar river which forms part of the Madaripur Bil Route which provides a short cut on the steamer traffic from Calcutta to East Bengal and Assam.

Lack of funds has rendered it impossible for the department to carry out any of the other major schemes which are ready for execution as soon as funds permit, or even to investigate, excepting in a few cases, the numerous problems which await solution. The following is a list of important works which have been administratively approved after investigation :—

(1) Re-excavation of the Aliapur khal (Khulna).

(2) Berai Irrigation project (Birbhum).

(3) Satkahonia Irrigation scheme (Burdwan).

(4) Raising the Damodar left embankment from 0 to 4 miles (Burdwan).

(5) Construction of a sluice at Kalinagar (Midnapore).

(6) Widening the Burhani khal (Bakarganj).

(7) Construction of paved escapes in the Cossye embankment.

(8) Kowri and Champa khal Irrigation scheme known as Jhargram project (Midnapore).

(9) Dolai khal scheme (Dacca).

(10) Constructing a sluice at Baitgarh in the 11th mile of the Shamchak embankment, Schedule D No. 40 (Midnapore).

The expenditure on the revenue account during the year amounted to about 28⅓ lakhs of rupees of which about Rs. 2¾ lakhs were spent on irrigation works proper, the principal items being the Midnapore and the Eden Canals. The expenditure on the Midnapore Canal was Rs. 2,14,682 which included Rs. 34,159 for the construction of a Stoney's shutter in the Midnapore weir. The rest of the expenditure was on navigation, embankment and drainage works. The expenditure on navigation was mainly for maintenance of the steamer and boat routes leading from Calcutta to Eastern Bengal and Assam and for reconstruction of the bridges over the Calcutta Canals, to the cost of which the Calcutta Improvement Trust and the Calcutta Corporation contribute in certain cases where improved bridges are required. The expenditure on the Sundarbans Steamer Route was heavy (above Rs. 4 lakhs) owing mainly to the cost of dredging and repairs of the dredgers attached to this work and that on the Madaripur Bil Route was nearly Rs. 3 lakhs and that on the bridges over the Calcutta Canals about Rs. 1½ lakhs. There was also an expenditure of Rs. 27,000 on silt clearance of the Hijili Tidal Navigation Canal.

This department is in charge of about 1,255 miles of embankments involving recurring charges for maintenance. Fortunately, there were no serious floods entailing abnormal repairs during the year. The expenditure on these embankments came to about Rs. 7,34,000.

There were no additions to the length of public embankments and the policy of gradually abandoning those protective embankments which have been found to have an injurious effect, was continued and a length of about 34 miles was abandoned during the year. The amount spent on the maintenance of drainage works, such as the Magra Hat Drainage Project, came to about Rs. 80,000.

The following is a list of important works under execution or in charge of the Irrigation Department :—

(1) Construction of the Damodar Canal project.

(2) Maintaining the Calcutta and Eastern Canals.

(3) Maintaining the Tolly's Nala and Kowrapukar khal.

(4) Maintaining Sundarbans Steamer Route.

(5) Maintaining the Magra Hat drainage project.

(6) Construction of the Dhutkhali sluice.
(7) Maintaining the Midnapore Canal.
(8) Maintaining the Hijili Tidal Canal.
(9) Maintaining the Orissa Coast Canal.
(10) Maintaining the Eden Canal.
(11) Maintaining the Amta drainage project.
(12) Remodelling the Hoorhoora khal.
(13) Maintaining the Rajapur and Burrojola drainage works.
(14) Maintaining the Dankuni drainage works.
(15) Maintaining the Madaripur Bil Route.
(16) Maintaining the Lower Kumar river.
(17) Construction of locks and sluices in the Madaripur and Lower Kumar river.
(18) Maintaining the Arool Bil drainage works.
(19) Dredging the river Attrabanka.
(20) Maintaining Bullee Bil drainage works.
(21) Maintaining the inner and the outer boat route.
(22) Constructing and maintaining the brick mattress at Serajganj.
(23) Construction of the Gobra Nala Cut.
(24) Bandalling the Bhagirathi river.
(25) Maintaining the Sarda revetment.
(26) Construction of the Bakreswar Canal.
(27) Maintaining the Amjore weir.
(28) Maintaining the Salbund weir.
(29) Maintaining 1,255 miles of embankments in the districts of 24-Parganas, Midnapore, Burdwan, Hooghly and Tippera.
(30) Conservancy of the Ganges from Rajmahal to Goalundo.
(31) Training the Mahananda river.
(32) Bandalling the Dhalleswari with its feeders and Buriganga rivers.

The last three works are carried out by the Joint Steamer Companies on behalf of this department.

The revenue receipts showed a decrease due in most cases to unfavourable economic conditions. For instance, the estimated value of goods carried by the Calcutta and Eastern Canals was 4,21 lakhs of rupees as against 6,18 lakks, the annual average for the preceding triennium. The tonnage came to 6¼ lakhs as against the average of over 7 lakhs. The capital and revenue accounts include receipts on account of hire earned by the dredger "Ronaldshay" now working for the Government of India in the Andamans. This amounted to Rs. 4,75,309 altogether during the year.

One of the most difficult problems with which this department is to deal is the protection of towns from erosion of the great rivers. Only when circumstances are favourable and the expenses not prohibitive, it is possible to achieve success in this direction. In the year under report a brick mattress was constructed at Sirajganj to protect the town from erosion and the result was for the time being successful.

The recommendations of the Irrigation Department Committee for the formation of a separate Waterways Trust to deal with navigation in Bengal were under consideration. The bodies consulted were in general agreement with the proposal to form a Waterways Trust. The Trust would not, however, be able to deal effectively with the numerous problems connected with the 20,000 miles of waterways in Bengal unless it has adequate resources and is established on a firm financial basis. Government considered that this aspect of the matter required further examination before effect is given to the proposal.

4. **The Damodar Canal Project.**—The total capital expenditure to the end of the year 1930-31 (direct and indirect) amounted to Rs. 61,83,058 against the estimated cost of Rs. 78,14,981. The construction work is nearing completion and it is expected that the canal will be partially opened in 1932. A revised estimate for the project is under preparation for submission to the Government of India. His Excellency the Governor of Bengal paid a visit to the Headworks of the canal on the 17th January 1931.

5. **The Bakreswar Irrigation Scheme (Birbhum).**—The work was nearly completed during the year. The capital expenditure to the end of the year was Rs. 5,60,483 (direct and indirect) against

the estimated cost of Rs. 4,90,596. The scheme will irrigate about 10,000 acres of paddy in a tract subject to frequent scarcity.

6. **The Midnapore Canal.**—The canal consists of two weirs at Midnapore and Panskura, 69·75 miles of main and branch canals used both for irrigation and navigation purposes and 284·97 miles of distributaries. No capital expenditure was incurred on the canal during the year. The area irrigated was 51,541 acres as against 59,605 acres in the previous year. The receipts and working expenses were Rs. 2,17,341 and Rs. 2,14,682, respectively, the result being a net revenue of Rs. 2,659, as against the deficit of Rs. 4,813 of the previous year. The diminution in the area irrigated was due to the fact that most of the leases were not renewed during the year owing to the fall in the price of paddy and to copious and timely rainfall.

7. **The Grand Trunk Canal Project.**—The project has been held in abeyance.

8. **The Hijili Tidal Canal.**—This canal with the Terapakia Pass Khal, Palaboni khal and the khal leading to the Gewankhali lock entrance constitutes a navigation canal, 49¾ miles in length. No capital expenditure was incurred on the canal during the year. The receipts and working expenses amounted to Rs. 55,971 and Rs. 91,707, respectively, as against Rs. 67,668 and Rs. 1,04,286 in the preceding year. The fall in revenue was due to the general trade depression and to the closure of range No. I of the canal from the 24th February 1930 to 23rd May 1930 for silt clearance.

9. **The Calcutta and Eastern Canals.**—These consist of natural and artificial navigation channels about 834 miles long for maintaining communication between Calcutta and Eastern Bengal. There was no capital outlay on this system during the year. The receipts and working expenses amounted to Rs. 4,07,476 and Rs. 4,73,799, respectively, the result being a deficit of Rs. 66,323 as against the deficit of Rs. 1,84,008 in the preceding year. The financial results are likely to improve further when the work of reconstruction of certain bridges over the Calcutta Canal on which heavy expenditure is now being incurred, is finished.

10. **The Sundarbans Steamer Route.**—Which is about 350 miles long is being treated as a separate project from the Calcutta and Eastern Canals since 1924-25. Receipts on Capital account amounted to Rs. 12,091. The revenue receipts and working expenses amounted to Rs. 72,265 and Rs. 4,29,215, respectively, the result being a deficit of Rs. 3,56,950 as against Rs. 37,118 in the preceding year.

11. **The Madaripur Bil Route.**—Which is 38 miles in length connects the Modhumati and Kumar rivers in the Faridpur district. A capital expenditure of Rs. 1,43,825 was incurred during the year on this route, and the construction of locks and sluices was almost completed.

The revenue receipts and working expenses during the year were Rs. 3,02,891 and Rs. 2,95,852, respectively, the result being a net revenue of Rs. 7,039 as against a deficit of Rs. 1,95,972 in the preceding year.

12. **Dredger Ronaldshay.**—The accounts of this dredger have been separated from those of the Grand Trunk Canal and the expenditure on it classified as "unproductive" under the orders of the Secretary of State. The dredger was hired by the Government of India and was employed throughout the year on the Andamans Reclamation scheme.

The total capital outlay to end of the year amounted to Rs. 50,33,596. The hire realised during the year on account of work done by the dredger amounted to Rs. 4,74,135 of which Rs. 4,30,335 was credited to capital account and the remainder to the revenue account. The working expenses during the year exclusive of hire charges amounted to Rs. 21,628.

13. **Dredgers "Cowley" and "Burdwan."**—The total capital outlay on the two dredgers to end of the year amounted to Rs. 61,06,324. The hire realised during the year on account of work done by the dredgers amounted to Rs. 66,663 of which Rs. 60,757 was credited to capital account and the remainder to the revenue account. The working expenses during the year exclusive of hire charges amounted to Rs. 61,978.

14. **Minor Irrigation, Navigation, Embankment and Drainage Works for which neither Capital nor Revenue Accounts are kept.**—These include Eden Canal, Amjore Weir, Orissa Coast Canal, Nadia rivers, Magrahat drainage scheme, Government Embankment, Surveys and other works enumerated in paragraph 9. The total working expenses on these works during the year amounted to Rs. 12,96,609 against Rs. 14,10,436 in the previous year.

15. **Surveys.**—Surveys and investigations were continued during the year in connection with certain irrigation works in Western Bengal and also in connection with the drainage problems of the northern and other districts of the Presidency. Among these were (1) preliminary survey of Darkeswar reservoir project in Bankura, (2) detailed survey of Suvankar Danra project in Bankura, (3) detailed survey of the Bansloi Irrigation scheme in Birbhum, (4) survey of Ajoy Canal scheme in Burdwan, (5) Observation of hydraulic conditions of the Malda district, (6) investigation in connection with North Bengal Flood and (7) survey and investigation in connection with the erosion of the Noakhali Khal.

16. **General economic condition.**—The rainfall in the catchment areas of all the rivers during the year was normal. The outturn of crop was also satisfactory and better than that of the previous year. But the general economic conditions of the country were not favourable on account of the general trade depression and fall of prices of all commodities which also accounted for the decrease in the navigation receipts.

By order of the Governor in Council,

H. C. V. PHILPOT,

Secretary to the Government of Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 15th April 1932.

Monthly Weather and Crop Report of Bengal for March 1932.

I. **Character of the season.**—During the month under review, the rainfall was much below the average throughout the province except in Dacca, Bakarganj and the Tripura State, where the fall was a little in excess.

The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Preparatory tillage for and sowings of jute and paddy could not progress satisfactorily in the low-land tracts of East Bengal owing to drought. Harvesting of spring crops was nearing completion. Planting of sugarcane progressed fairly.

III. **State of standing crops.**—The condition of standing crops was reported as fair on the whole.

IV. **Prospects and probable outturn.**—The prospects of summer *til*, sugarcane and other standing crops are not satisfactory owing to drought. The outturns of summer rice and tobacco are estimated at 75 and 93 per cent. of the normal, respectively, this year.

V. **Damage to standing crops.**—No damage to standing crops was reported from any part of the province.

VI. **Condition of agricultural stock.**—The condition of live-stock was fair. Stray cases of cattle-disease, however, were reported from ten districts of the province and from the Cooch-Bihar and Tripura States.

VII. **Failure of pasturage and fodder.**—Some insufficiency of fodder was reported from parts of Mymensingh only.

VIII. **Prices of food-grains.**—During the second fortnight of the month, the retail prices of common rice of the cheapest quality rose in four districts, fell in six and remained stationary in the rest of the Presidency. The prices ranged from 10 seers per rupee at Darjeeling to 16½ seers per rupee at Malda.

RESOLUTION—No. 2431F.B.

Calcutta, the 25th April 1932.

In the last session of the Bengal Legislative Council several resolutions were tabled recommending to Government the desirability of appointing a Retrenchment Committee. The one that was actually put to the vote and carried without a division was moved by Mr. J. N. Gupta. It runs as follows:—

> "This Council recommends to the Government that a Committee of Retrenchment be appointed for the province to examine and consider all possible retrenchments of the administration both in the Reserved and the Transferred Sides, and to recommend to Government to take suitable action either in their own competence or by reference to the proper authority with a view to effect a substantial reduction in the cost of the administration."

On the 16th March the Hon'ble Mr. Marr informed the House that the present Government were in favour of appointing a Retrenchment Committee as early as possible, but they were of opinion that the final decision on this question must be left until the arrival of the new Governor.

Mr. J. A. L. Swan, C.I.E., I.C.S., Chairman,

His Excellency hopes that the Committee will be able to submit their report for the consideration of Government by the end of August next.
